

MAGIC WAND® PWG W

track mounted dim-to-warm wallwasher

- **This lamp dims from 2700K to 2200K**, providing an experience similar to the dimming profile of an incandescent lamp.
- **Fixture may be mounted on and powered by any of eighteen 20-amp 120-volt Edison Price Lighting track systems.** Fixture includes an integral electronic transformer.
- **The optical assembly consists of an integral specular reflector and 40° x 70° spread lens.**
- **A flared socket cap prevents any backslash of light onto the ceiling.**
- **Concealed swivels provide 350° horizontal rotation as well as vertical adjustment from 0° to 90°.** Swivels are permanently tensioned, allowing the fixture to remain fixed at any aiming angle.
- **Magic Wand fixtures have seamless aluminum housings for lightweight durability.** Because their track adapters are entirely concealed within the track, Magic Wand fixtures have an exceptionally clean appearance. Standard finish is matte white with a white socket lead; also available in black and Industrial Silver matte paint finishes.
- **For more information, [click here.](#)**

Magic Wand PWG W is a wallwasher designed for use with a Philips 12-volt, GU5.3 base, MR-16 shaped, 'WarmGlow' retrofit LED lamp (supplied by others).

- Philips WarmGlow 6.5MR16...
