

FOUR XTM AA EE recessed LED accent light

PRECISE OPTICS - PRECISE OPTICS - PRECISE OPTICS - PRECISE OPTICS - PRECISE OPTICS - PRECISE OPTICS - PRECISE OPTICS

- **FOUR XTM AA EE is a 4" aperture, enhanced efficacy (EE), LED accent light.** Luminaire is powered by one of a number of Xicato XTM (19mm) LED modules. See tables below for wattages and efficacies. Luminaire may be ordered with one of a number of drivers.
- **Luminaire provides 362° horizontal rotation and 0°-35° angular adjustment.** Once focused, adjustment is locked by a thumb screw and wing nut.
- **Luminaire employs an internal 'twist and lock' reflector** to produce an initial beam-spread of 36° or 54°. To allow beamspread to be changed in installed luminaires, internal reflectors are available as accessories.
- **Luminaire includes a complimentary Beam Smoother** which may be replaced by one or two **Optical Accessories** including lenses and screens.
- **External reflectors, cut at 15°**, are available in three natural aluminum finishes – semi-specular (C), slightly diffuse (V) or fully diffuse (EC) – as well as black Alzak® and specular white enamel. Other finishes are available on special order. A LightPlate may be used instead of an external reflector.
- **LightCharms® or LightPlate™ decorative trims** may be ordered instead of standard reflectors, see below.
- **Housing is constructed from 20-gauge electro-zinc, polyester-coated steel** in Edison Price Lighting's American factory. Heavy-gauge metals and American manufacturing guarantee long-lasting durability.
- **Luminaires includes a pair of mounting bars** (3/4" x 27" C channel). Specialty bars for wood and T-bar installations are also available.
- **For more information, click here.**

APPLICATIONS

Luminaire is listed as an inherently protected luminaire for Damp Location. Luminaire is RoHA compliant, is suitable for use in a fire rated ceiling and is approved for ten #12 wire 90° C branch circuit wiring. Removal of the external reflector allows access to the LED module and junction box.

For a version of this luminaire designed to provide greater shielding of the light source, see **FOUR XTM AA ES**.

For **higher lumen packages and lower pricing**, see **FOUR HI CZS AA**.

For **shallower depths and lower pricing**, see **WAFER/4AA**.

SPACING – Three models – L13A, L20S and L20V – must be spaced 30" apart and 15" from walls with 1/2" clearance above housing.
