

SQUARE AA NSP/4

recessed square LED narrow spot accent light

FULLY SUSTAINABLE – FULLY SUSTAINABLE – FULLY SUSTAINABLE – FULLY SUSTAINABLE – FULLY SUSTAINABLE – FULLY SUSTAINABLE – FULLY SUSTAINABLE

FEATURES

- SQUARE AA NSP/4 is a 4" square LED narrow spot accent light.** Luminaire is powered by one of a number of Xicato XTM (9mm) LED modules, distinguished by extraordinary color consistency (within 1x2-step MacAdam ellipse). See tables on pages below for wattages and efficacies.
- Luminaire overall depth is 6"** (housing depth of 5" plus a 1" throat).
- Luminaire employs an internal 'twist and lock' internal reflector** to produce an initial beamspread of 14° or 24°. To allow beamspread to be changed in installed luminaires, internal reflectors are available as accessories.
- Luminaire provides full circle rotation and 0° - 35° angular adjustment.** Once focused, adjustment may be locked by means of a thumb screw and a wing nut.
- Precise reflector design minimizes aperture brightness** and virtually eliminates the inter-reflections inherent with square apertures. External reflector is designed to accept either a Solite-pattern prismatic lens (-PRS) or a clear glass (-GLS) mounted in the top aperture.
- External reflectors are available in two clear natural aluminum finishes** – slightly diffuse (V) or fully diffuse (EC) – as well as black and white.
- Housing is constructed from 14-gauge and 16-gauge electro-zinc steel** in Edison Price Lighting's American factory. Heavy-gauge metals and American manufacturing guarantee long-lasting durability.
- Luminaires includes a pair of 3/4" x 27" C channel mounting bars.**

APPLICATIONS

Fixture is  listed for Damp Location. Fixture is wired with thermal protector and approved for eight #12 wire 90° branch circuit pull-through wiring. Removal of the external reflector trim allows access to the LED module and junction box.

SPACING

Six models – L07A, L10A, L10S, L10V, L13S and L13V – must be spaced 30" apart and 15" from walls with 1/2" clearance above housing.

For **Trimless Square aperture** model, see [PRIM SQUARE AA NSP/4](#).
For **shallower depths and lower pricing**, see [WAFER SQUARE/4 AA](#).
