# MAGIC WAND® PWG O-OBM

surface mounted dim-to-warm accent light

Magic Wand PWG O-OBM is a surface mounted accent light designed for use with a Philips 12-volt, GU5.3 base, MR-16 shaped, 'WarmGlow' retrofit LED lamp (supplied by others).

- Philips WarmGlow 6.5MR16...

- This lamp dims from 2700K to 2200K, providing an experience similar to the dimming profile of an incandescent lamp.
- Fixture is designed for mounting on a 4" octagonal outlet box (by others). Fixture includes an integral electronic transformer.
- The optical assembly consists of a conical specular black reflector which reduces lamp brightness.
- A flared socket cap prevents any backslash of light onto the ceiling.
- Concealed swivels provide 350° horizontal rotation as well as vertical adjustment from 0° to 90°. Swivels are permanently tensioned, allowing the fixture to remain fixed at any aiming angle.
- Fixture accepts one or two of a number of [Optical Accessories](#) including spread lenses, a beam smoother and color filters.
- Magic Wand fixtures have seamless aluminum housings for lightweight durability. Standard finish is matte white with a white socket lead; also available in black and Industrial Silver matte paint finishes.
- For more information, [click here](#).

### Lamp (By Others) Dimming Info

Edison Price Lighting does not include lamps and does not sell either lamps or their accessories. For dimming compatibility consult the lamp manufacturer's website.
