MINI WAND™ 16E W

track mounted MR16 LED wallwasher

Mini Wand 16E W is a wallwasher designed for use with a 120-volt, GU10 base, 7.5 watt Sora MR16-GU10 lamp. Fixture may be powered by one of eighteen 20-amp 120-volt track systems. Additional lamps may be suitable. Contact factory with inquiries.

- The optical assembly consists of an integral specular reflector and a 40° x 70° spread lens.
- Concealed swivels provide 350° horizontal rotation as well as vertical adjustment from 0° to 90°. Focus is positively locked by tightening the knurled ends of the stems.
- Fixture accepts one of a number of [Optical Accessories](#) including color filters and light reduction screens.
- Mini Wand fixtures are constructed of aluminum components for light-weight durability. Because their track adapters are entirely concealed within the track, Mini Wand fixtures have an exceptionally clean appearance. Standard finish is matte white with a white socket lead; also available in black and Industrial Silver matte paint finishes.
- For more information, [click here](#).

For the outlet box mounted version of this fixture, see [Mini Wand 16E W-OBM](#).

MODIFICATIONS AVAILABLE
Contact factory with quantity for pricing; orders may require shop drawing approval.
For modified stem lengths up to 72", add the following to the end of the product code:
+ number of inches.
