FEATURES

- EPIC WAFER/4 AA EE is a 4" aperture, high efficacy, LED accent light (EE) designed for insulation contact (IC) and certified airtight under ASTM E283. Recess depth is only 4 5/8".
- Luminaire provides 365° rotation and 0°-30° angular adjustment. Once focused, adjustment may be locked by a lever and a thumb nut.
- Luminaire employs an internal spring-loaded lens to produce an initial beam-spread of either 12°, 20° or 36°. To allow beam-spread to be changed in installed luminaires, internal lenses are available as accessories.
- Luminaire is powered by one of a number of Cree Chip on board LED's. See below for wattages and efficacies.
- External reflectors, cut at 15°, are available in three clear natural aluminum colors – semi-specular (C), slightly diffuse (V) or fully diffuse (EC) – as well as champagne gold, black Alzak® and specular white enamel. Other finishes are available on special order.
- EPIC WAFER/4 AA EE includes a pair of residential mounting bars extendable to 20" and designed for use in wood joists.

APPLICATIONS

Luminaire is listed for direct contact with insulation, certified airtight under ASTM E283, and suitable for damp location. Luminaire is prewired, suitable for use in a fire rated ceiling, and approved for #12 wire 75° C branch circuit wiring. Removal of the external reflector allows access to the LED module and junction box.

For a version of this luminaire designed to provide greater shielding of the light source, see [EPIC WAFER/4 AA ES](#).
